

1. Recognition- This committee will provide affiliated schools with new, create, and fun ways to recognize the outstanding individuals that dwell on their campuses. This committee will also work on further recognition of NCCs, PCCs, NRHH Reps, Presidents, Advisors, and Delegates at annual MACURH conferences.
2. Legislation and Development - This committee will receive all legislation prior to conferences and have an opportunity to review it and evaluate it and offer suggestions and improvements. This committee may also draft legislation for the betterment of our region by looking at the policy book and other MACURH documents.
3. Programming- This committee will work to improve MACURH-U at future MACURH conferences and devise ways to improve quality programming and communication throughout the region whether it be at conferences or through other means. This committee will be asked to encourage participating schools to bring new, innovative, and unique programming ideas to conferences and will help to publicize successful programs throughout the region.
4. Sustainability-The MACURH Sustainability committee will be overseeing many unique projects this year. The committee will be tackling sustainability newsletters, commitment to sustainability award and a sustainability competition. This Committee will be under the supervision of the RCC of Technology
